Author Index

Abrams, M.D. (University Park, Pa., U.S.A.)
Leaf structural and photosynthetic pigment characteristics of three gallery-forest hardwood species in northeast Kansas 261
Abrol, I.P., *see* Gill, H.S. et al.
Ahimana, C. and Maghembe, J.A. (Morogoro, Tanzania)
Growth and biomass production by young *Eucalyptus tereticornis* under agroforestry at Morogoro, Tanzania 219
Anderson, L., Carlson, C.E. and Wakimoto, R.H. (Missoula, Mont., U.S.A.)
Forest fire frequency and western spruce budworm outbreaks in western Montana 251
Bergkvist, B. (Lund, Sweden)
Leaching of metals from forest soils as influenced by tree species and management 29
Bergmann, F. (Göttingen, Federal Republic of Germany)
Characterization of multiclonal aspen cultivars using isozyme electrophoresis 167
Berryman, A.A., *see* Christiansen, E. et al.
Binns, D., *see* Cornish, P.M. and Binns, D.
Carlson, C.E., *see* Anderson, L. et al.
Caulfield, J.P. (Auburn, Ala., U.S.A.)
Decision analysis in damaged forest plantations 155
Christiansen, E. (Ås, Norway), Waring, R.H. (Corvallis, Oreg., U.S.A.) and Berryman, A.A. (Pullman, Wash., U.S.A.)
Resistance of conifers to bark beetle attack: searching for general relationships 89
Cornish, P.M. (Beecroft, N.S.W., Australia) and Binns, D. (Wauchope, N.S.W., Australia)
Streamwater quality following logging and wildfire in a dry sclerophyll forest in southeastern Australia 1
Entry, J.A. (Moscow, Ida., U.S.A.), N.M. Stark (Missoula, Mont., U.S.A.) and Loewenstein, H. (Moscow, Ida., U.S.A.)
Timber harvesting: effects on degradation of cellulose and lignin 79
Fitzsimons, B., see Gallagher, G.J. et al.
Freer-Smith, P.H. (Farnham, Great Britain)
Book review of *Acid Deposition and the Acidification of Soils and Waters*, by J.O. Reuss and D.W. Johnson 307
Gallagher, G.J., Lynch, T.J. and Fitzsimons, B. (Bray, Republic of Ireland)
Lodgepole pine in the Republic of Ireland. II. Yield and management of coastal lodgepole pine 185
Gill, H.S., Abrol, I.P. and Samra, J.S. (Karnal, India)
Nutrient recycling through litter production in young plantations of *Acacia nilotica* and *Eucalyptus tereticornis* in a highly alkaline soil 57
Gwalter, J., *see* Horne, R. and Gwalter, J.
Hain, F.P., *see* Matson, P.A. et al.
Hilton, G. (Lae, Papua New Guinea)
Nutrient cycling in tropical rainforests: implications for management and sustained yield 297
Horne, R. and Gwalter, J. (Beecroft, N.S.W., Australia)
The recovery of rainforest overstorey following logging. 2. Warm temperate rainforest 267
Horne, R. and Mackowski, C. (Beecroft, N.S.W., Australia)
Crown dieback, overstorey regrowth and regeneration response in warm temperate rainforest following logging 283
Johnson, T.S. and Wood, G.B. (Canberra, A.C.T., Australia)
Simple linear model reliably predicts bark thickness of radiata pine in the Australian Capital Territory 173

Kirmse, R.D. (Washington, D.C., U.S.A.), Provenza, F.D. and Malechek, J.C. (Logan, Utah, U.S.A.)
Effects of clearcutting on litter production and decomposition in semiarid tropics of Brazil 205
Klinka, K., *see* Pojar, J. et al.
Landsberg, J.J. (Dickson, A.C.T., Australia)
Book review of *Floodplain Forest Ecosystems I: Before Water Management Measures*, by M. Penka et al. 311
Leps, J., *see* Vacek, S. and Leps, J.
Loewenstein, H., *see* Entry, J.A. et al.
Lynch, T.J., *see* Gallagher, G.J. et al.
Mackowski, C., *see* Horne, R. and Mackowski, C.
Maghembe, J.A., *see* Ahimana, C. and Maghembe, J.A.
Malechek, J.C., *see* Kirmse, R.D. et al.
Matson, P.A., Hain, F.P. and Mawby, W. (Raleigh, N.C., U.S.A.)
Indices of tree susceptibility to bark beetles vary with silvicultural treatment in a loblolly pine plantation 107
Mawby, W., *see* Matson, P.A. et al.
Meidinger, D.V., *see* Pojar, J. et al.
Moreshet, S., *see* Zohar, Y. and Moreshet, S.
Msanga, H.P., *see* Mugasha, A.G. and Msanga, H.P.
Mugasha, A.G. and Msanga, H.P. (Lushoto, Tanzania)
Maesopsis eminii seed coat impermeability is not the cause of sporadic and prolonged seed germination 301
Pojar, J. (Smithers, B.C., Canada), Klinka, K. (Vancouver, B.C., Canada) Meidinger, D.V. (Victoria, B.C., Canada)
Biogeoclimatic ecosystem classification in British Columbia 119
Provenza, F.D., *see* Kirmse, R.D. et al.
Ramakrishnan, P.S., *see* Swamy, P.S. and Ramakrishnan, P.S.
Samra, J.S., *see* Gill, H.S. et al.
Stark, N.M., *see* Entry, J.A. et al.
Swamy, P.S. and Ramakrishnan, P.S. (New Delhi, India)
Contribution of *Mikania micrantha* during secondary succession following slash-and-burn agriculture (Jhum) in north-east India.
I. Biomass, litterfall and productivity 229
II. Nutrient recycling 239
Unsworth, M.H. (Loughborough, Great Britain)
Book review of *Physiological Ecology of Forest Production*, by J.J. Landsberg 309
Vacek, S. (Opočno, Czechoslovakia) and Leps, J. (České Budějovice, Czechoslovakia)
Changes in the horizontal structure in a spruce forest over a 9-year period of pollutant exposure in the Krkonoše Mountains, Czechoslovakia 291
Wakimoto, R., *see* Anderson, L. et al.
Waring, R.H., *see* Christiansen, E. et al.
Wood, G.B., *see* Johnson, T.S. and Wood, G.B.
Zohar, Y. and Moreshet, S. (Bet Dagan, Israel)
Provenances of *Eucalyptus occidentalis* in the arid zone of Israel 71

Subject Index

Acacia
Nutrient recycling through litter in *A. nilotica* and *Eucalyptus* in a highly alkaline soil ... 57
Acid deposition, *see* Pollution
Agroforestry
Eucalyptus production under agroforestry ... 219
Aridity, *see* Water regime
Beetle, bark, *see* Pests, weeds and diseases
Celtis
Leaf structural and photosynthetic pigment characteristics of hardwoods ... 261
Clearcutting, *see* Management practices, effects of
Decision analysis, *see* Modelling
Dieback
Dieback, regrowth and regeneration in warm temperate rainforest following logging ... 283
Ecosystem classification
Biogeoclimatic classification in British Columbia ... 119
Eucalyptus
E. occidentalis in the arid zone of Israel ... 71
Nutrient recycling through litter in *Acacia nilotica* and *Eucalyptus* in a highly alkaline soil ... 57
Production under agroforestry ... 219
Fire
Decision alaysis in damaged forests ... 155
Forest fire and spruce budworm outbreaks ... 251
Streamwater quality following logging and wildfire ... 1
Forage
Effects of clearcutting on litter production and decomposition ... 205
Genetic characterization
of multiclonal aspen cultivars using isozyme electrophoresis ... 167
Germination
Maesopsis eminii seed coat impermeability ... 301
Litter
Contribution of *Mikania* during secondary succession following slash-and-burn agriculture, I. Biomass, litterfall and productivity ... 229
Nutrient recycling through litter in *Acacia* and *Eucalyptus* in a highly alkaline soil ... 57
Logging
Dieback, regrowth and regeneration in warm temperate rainforest following logging ... 283
Harvesting: effects on degradation of cellulose and lignin ... 79
Recovery of overstorey following logging. 2. Warm temperate rainforest ... 267
Streamwater quality following logging and wildfire ... 1
Maesopsis
M. eminii seed coat impermeability and germination ... 301
Management practices, effects of
Clearcutting, effects of on litter production and decomposition ... 205
Decision analysis in damaged forests ... 155
Floodplain Forest Ecosystems (book review) ... 311
Leaching of metals as influenced by species and management ... 29
Lodgepole pine in Ireland. II. Yield and management ... 185
Nutrient cycling in tropical rainforests: management and yield ... 297
Susceptibility to bark beetles varies with silvicultural treatment in loblolly pine ... 107

Metals, *see* Nutrient dynamics
Mikania, see Pests, weeds and diseases
Modelling
Decision analysis in damaged forests 155
Linear model predicts bark thickness of radiata pine 173
Recovery of overstorey following logging. 2. Warm temperate rainforest 267
Nutrient dynamics
Contribution of *Mikania* during secondary succession following slash-and-burn agriculture. II. Nutrient cycling 239
Leaching of metals as influenced by species and management 29
Nutrient cycling in tropical rainforests: management and yield 297
Nutrient recycling through litter in *Acacia* and *Eucalyptus* in a highly alkaline soil 57
Resistance to bark beetle attack: general relationships 89
Streamwater quality following logging and wildfire 1
Timber harvesting: effects on degradation of cellulose and lignin 79
Pests, weeds and diseases
Contribution of *Mikania* during secondary succession following slash-and-burn agriculture.
I. Biomass, litterfall and productivity 229
II. Nutrient recycling 239
Decision alaysis in damaged forests 155
Forest fire and spruce budworm outbreaks 251
Resistance to bark beetle attack: general relationships 89
Susceptibility to bark beetles varies with silvicultural treatment in loblolly pine 107
Picea spp.
Changes in structure in spruce forest over a period of pollutant exposure 291
Pinus spp.
Forest fire and spruce budworm outbreaks 251
Linear model predicts bark thickness of radiata pine 173
Lodgepole pine in Ireland. II. Yield and management 185
Susceptibility to bark beetles varies with silvicultural treatment in a loblolly pine 107
Plantation forestry
Nutrient recycling through litter in *Acacia* and *Eucalyptus* in a highly alkaline soil 57
Pollution
Acid Deposition and the Acidification of Soils and Waters (book review) 307
Changes in structure in spruce forest over a period of pollutant exposure 291
Leaching of metals as influenced by species and management 29
Populus spp.
Characterization of multiclonal aspen cultivars using isozyme electrophoresis 167
Productivity
Contribution of *Mikania* during secondary succession following slash-and-burn agriculture.
I. Biomass, litterfall and productivity 229
II. Nutrient recycling 239
Eucalyptus production under agroforestry 219
Nutrient cycling in tropical rainforests: management and yield 297
Physiological Ecology (book review) 309
Timber harvesting: effects on degradation of cellulose and lignin 79
Pseudotsuga spp.
Forest fire and spruce budworm outbreaks 251

Quercus spp.
Leaf structural and photosynthetic pigment characteristics of hardwood species 261
Rainforest, tropical
Nutrient cycling in tropical rainforests: management and yield 297
Rainforest, warm temperate
Dieback, regrowth and regeneration in warm temperate rainforest following logging 283
Recovery of overstorey following logging. 2. Warm temperate rainforest 267
Regeneration
Contribution of *Mikania* during secondary succession following slash-and-burn agriculture.
I. Biomass, litterfall and productivity 229
Dieback, regrowth and regeneration in warm temperate rainforest following logging 283
Recovery of overstorey following logging. 2. Warm temperate rainforest 267
Resistance, *see* Pests, weeds and diseases
Sclerophyll forest
Streamwater quality following logging and wildfire 1
Semiarid woodland
Effects of clearcutting on litter production and decomposition 205
Silvicultural treatment, *see* Management practices, effect of
Slash-and-burn
Contribution of Mikania during secondary succession following slash-and-burn agriculture.
I. Biomass, litterfall and productivity 299
II. Nutrient cycling 239
Soil dynamics
Leaching of metals as influenced by species and management 29
Nutrient recycling through litter in *Acacia* and *Eucalyptus* in a highly alkaline soil 57
Streamwater quality following logging and wildfire 1
Timber harvesting: effects on degradation of cellulose and lignin 79
Species, choice of, *see* Management practices, effects of
Streamwater, *see* Water regime
Structure, forest
Changes in structure in spruce forest over a period of pollutant exposure 291
Dieback, regrowth and regeneration following logging 283
Recovery of overstorey following logging 267
Structure, plant
Forest fire and spruce budworm outbreaks 251
Linear model predicts bark thickness of radiata pine 173
Leaf structural and photosynthetic pigment characteristics of hardwood species 261
Susceptibility to bark beetles varies with silvicultural treatment in a loblolly pine 107
Succession
Contributin of *Mikania* during secondary succession following slash-and-burn agriculture.
I. Biomass, litterfall and productivity 229
Tree vigour, *see* Pests, weeds and diseases
Variety trials
Eucalyptus in Israel 71
Water regime
Eucalyptus in the arid zone of Israel 71
Floodplain Forest Ecosystems (book review) 311
Streamwater quality following logging and wildfire 1
Yield, *see* Productivity
